

Anti-theft device Numak 105

NUMAK 105 is the diesel fuel anti-theft device practically invulnerable. It has no hole or loophole to insert pipe or tubes for a misappropriation of fuel. The progressive float locking system is placed on the bottom of NUMAK 105 and prevents any access to the fuel located in the upper tank with no obstacle during the fuelling operations.

NUMAK 105 is easily installed in a few seconds, without any mechanical action, thanks to its double metal ring device with quick bayonet fitting. No fixing or anchorage operations (no screw, no rivet, no adhesive nor sealing materials) are required.

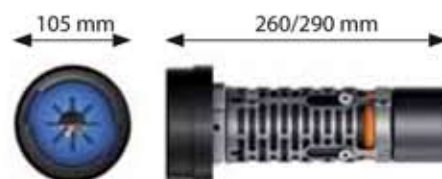

NUMAK 105 to fill up your car in a fast, secure and theft-proof way! It is compatible with the tanks of more than 90% of vehicles and does not always require the replacement of the original tank cap.
